Rent Ledger

Room A — statement of rent charged, payments received, and balance due

Payments from	**VLADIMIR FLOROV, DANILA FLOROV**	Ledger period	**July 1, 2025 – September 8, 2026**
Rent rate	**$425.00 per week**	Prepared	**September 8, 2026**
Deposit account	**U.S. Bank Checking ····8247**	Case no.	

Total rent charged — 63 weekly charges at $425.00	$26,775.00
Less total payments credited — 33 payments received	($15,850.00)
Balance due as of September 8, 2026	**$10,925.00**

Unpaid balance equals 25.71 weeks of rent at the $425.00 weekly rate. A negative figure in the balance column means payments received had, at that date, run ahead of the rent charged.

Jul 6, 2026	DANILA FLOROV	$60.00	Cleaning service — paid in full
Total received for cleaning		**$375.00**	**Nothing outstanding**

> **Note on the cleaning payments.** The 7 receipts listed immediately above, totalling $375.00, are payments for cleaning — a service charged separately from the rent. They are shown here so that every deposit from the tenants in the bank export is accounted for, and they are correctly *not* credited against the rent balance. The tenants are not in arrears on the cleaning account: each of these charges was paid in full, and no amount remains outstanding on it. The $10,925.00 balance in this ledger is unpaid rent alone.

Basis of the ledger. Rent is charged at $425.00 per week, one charge every seven days beginning July 1, 2025, through September 8, 2026 — 63 charges in total. Payments are credited on the date the deposit posted to the account. The balance column is the running amount owed after each entry: a positive figure is rent outstanding, a negative figure (shown in green with a minus sign) means the payments received had, at that date, run ahead of the rent charged.

Source of the entries. Every payment line is taken from the bank export `Checking - 8247_07-01-2025_09-06-2026.csv` for U.S. Bank checking account ····8247, covering July 1, 2025 through the export cut-off. Payments were identified as coming from the tenants named above. No entry in this ledger is estimated or reconstructed; each corresponds to one row of that export.
